BEFORE YOU BEGIN
Warning read instructions carefully before use.
Recommended procedure to follow in this document.
For safety reasons, it is recommended that at least two persons set up any Canopy.
Ensure the area is free from any sharp objects & overhead objects.

WARNING: Keep clear of overhead power lines.

THINGS YOU SHOULD KNOW
Your canopy is supplied with 12 steel stakes and 4 tie down ropes. These MUST always be attached. For use on hard surfaces, weight plates, water weights, sandbags MUST be used. These are accessories and need to be purchased.

All roof tension straps MUST be attached and tensioned. These hold down methods will maximize safety, however, due to the unpredictable nature of weather, they will not prevent damage.

All canopies are considered temporary structures and MUST be packed down and stowed away in any adverse weather conditions such as storm, rain, wind or other forces of nature.

Prolonged exposure to the sun can seriously damage material and/or cause it to become discolored.

WARNING: KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TENT FABRIC.

This tent meets the flammability requirements of CPAI-84. The fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective.

SECURING YOUR INSTANT CANOPY

Extreme Canopy offers many options to safely secure all tents suitable for a variety of locations. The below instructions must be followed to safely secure all Instant Canopies. For more information please contact the Extreme Canopy office (888 201 1968).

1. Attach the tie-down ropes to the roof fabric via the D-rings. Secure the opposite end of the tie-down ropes.
2. For added security attach one of the below weighted products to the foot of each Canopy leg. Please note that Water Weights and Steel Weight Plates can be stacked on top of each other.

16’ X 16’ SETUP INSTRUCTIONS

Please read instructions completely before setting up your Instant Canopy. Make sure you have all the components identified on the Parts List. Recommended procedure below. For safety reasons it is recommended that 2 persons set-up / pack down any tent.

1. Remove all your items from packaging and clear a safe area.
2. Grasp Canopy Truss Bars where ‘LIFT HERE’ label is shown.
3. Ensure there are no trip hazards. Walk backwards and open frame fully.
4. Lift all four roof connectors until pins lock in to position. Stand on foot plate and lift with two hands until you hear a ‘Click’.
5. Standing underneath the frame, extend the upper center pole until it clicks in to position.
6. Using two hands, push the lower center pole upwards until locked in to position.
7. Ensure protective flaps are over the truss connectors. Attach them by looping the straps around the truss and engaging the clips, then tighten.
8. Extend the left corner legs to desired height by stepping on the canopy foot plate and releasing the middle leg by engaging the pull ring.
9. Extend middle leg on left side to match left corner legs already extended.
10. Extend the front canopy legs to full height. Repeat for back and middle legs.
11. Once the Instant Canopy is set up, refer to SECURING YOUR CANOPY on PAGE 1.
**16’ X 16’ CORRECT ROOF PLACEMENT**

Recommended procedure below. For safety reasons it is recommended that 2 persons set up any tent.

1. Open frame 75% of full extension and fit the roof to the frame.
2. Connect the velcro on roof corners to the velcro on the corners of the tent legs.
3. Fit the peak of the roof to the center poles of the canopy and tighten the toggle.

**16’ X 16’ PACK DOWN INSTRUCTIONS**

Please read instructions completely before setting up your Instant Canopy. Make sure you have all the components identified on the Parts List. Recommended procedure below. For safety reasons it is recommended that 2 persons set up / pack down any tent.

1. Release lower leg pins and fully retract left middle leg followed by corner legs. Repeat for right side legs.
2. Unclip roof straps from truss bars.
3. Pull the lower pin to release the center pole, followed by upper pin to retract upper center pole.
4. Release all roof corner pins.
5. Walk tent in by grasping ‘LIFT HERE’ section. At a quarter of the way, undo the velcro straps to remove roof for transport.
6. Fit the protective cover to frame and store roof in a protective bag.

**20’ X 20’ SETUP INSTRUCTIONS**

Please read instructions completely before setting up your Instant Canopy. Make sure you have all the components identified on the Parts List. Recommended procedure below. For safety reasons it is recommended that 3 people set up / pack down any tent.

1. Remove all your items from packaging and clear a safe area.
2. Open frame 75% of full extension.
3. Connect the velcro on roof corners to the velcro on the corners of the tent legs.
4. Fit the peak of the roof to the center poles of the tent and tighten the toggle.
5. Refer to ‘LIFT HERE’ sticker. Grasp the canopy truss bars.
6. Ensure there are no trip hazards. Walk backwards and open frame fully.
7. Lift all roof connectors until pins lock in to position. Stand on foot plate and lift with two hands until you hear a ‘Click’.
8. Ensure protective flaps are over the truss connectors. Attach them by looping the straps around the truss and engaging the clips, then tighten.
9. Extend the front legs halfway. Repeat for back and middle legs. Using one foot, stand on the marquee foot plate, release the pull ring on the middle leg connector and extend front legs to desired height.
10. Extend the front legs to full height. Repeat for back and middle legs.
11. Insert the center leg and extend completely. Once the Instant Canopy is set up, refer to SECURING YOUR CANOPY on PAGE 1.
**20’ X 20’ CORRECT ROOF PLACEMENT**

Recommended procedure below. For safety reasons it is recommended that 3 persons set up a 20’x20’ tent.

**FRAME**

**CORRECT**

**INCORRECT**

The center 3 roof poles are higher than the remaining 4 poles. These 3 poles need to line up with the reinforced section of the roof fabric. This is to accommodate for the extra pole height and also help prevent wear and tear of the roof fabric over time.

**20’ X 20’ PACK DOWN INSTRUCTIONS**

For safety reasons it is recommended that 3 people pack down a 20’x20’ tent. Be sure to remove any items used to secure the tent to the ground before packing it up.

1. Retract and remove the center leg pole, followed by the outer middle legs.
2. Retract front and back legs to halfway. Once all legs are 50% retracted, begin completely retracting all legs.
3. Unclip all roof straps from the truss bars.
4. Release all roof pins.
5. Walk tent in by grasping ‘LIFT HERE’ section. At a quarter of the way, undo the velcro straps to remove roof for transport.
6. Fit the protective cover to frame and store roof in a protective bag.

MAINTENANCE

PROTECTIVE COVERS ensure all Protective Covers are clean and dry before fitting to any of your Instant Canopy products.

SCREWS Regularly check that all screws are firm (not too tight). This can be done by using an Allen wrench and/or screwdriver. If a truss bar screw is missing replace immediately as it will put additional pressure on the frame when erecting.

LEGS When retracting or extending the legs on your Instant Canopy it is important the inner and outer legs are clean and free of the following items: sticky tape, masking tape, rope, string and cable ties. When sticky tape, string etc, is left on the leg of a tent it can cause the inner and outer leg to jam.

TRUSS BARS Truss bars are an integral part of the tent structure, if a truss bar is broken or damaged it is recommended that you do not use the Instant Canopy. If operated correctly in normal weather conditions truss bars will not break.

CLEANING

Do not clean any part of the Instant Canopy.

ROOF & WALLS When cleaning your Instant Canopy (Roof, Walls or Valance Panels) use a soft mop and any mild household cleaning fluid such as dish-washing detergent in warm water.

When cleaning the Roof Canopy of your Instant Canopy we recommend that the tent is fully opened and secured into position. Do not extend the legs. This will avoid the necessity of using a ladder or extension pole.

We recommend that the roof of your Instant Canopy should be cleaned regularly depending on frequency of use. Allow your Instant Canopy to dry completely before packing down and fitting the protective cover, this will prevent mildew.

SMALL STAINS Simply clean with a general household mild detergent and a clean cloth.

FRAME We recommend the Instant Canopy frame should be cleaned regularly. Use a silicone spray on frame either after use or in damp conditions. This will ensure your frame operates easily and will maintain a clean look. Be sure to remove any excess spray before attaching the roof.

TRANSPORTATION

The Instant Canopy must be stood upright during transit. If your Instant Canopy needs to be positioned horizontally you MUST remove the roof to prevent damage.

REPAIRS & SPARE PARTS

Contact the Extreme Canopy Office, advise which connector, truss bar or leg requires replacement. Use an Allen key or screwdriver to remove the damaged component, and replace it with the new part.

Or

In the case of a warranty claim, a Warranty Claim Form must first be completed. Forms are available online - www.extremecanopy.com/resource-center/

NOTE: Pit protective cover in Instant Canopy frame from top to bottom leaving Instant Canopy to stand on Feet or Wheels.

DO NOT drop Instant Canopy Protective Covers as this can cause wear and tear and may cause damage to your Instant Tent Canopy and Walls.

PRODUCTION & DELIVERY

Extreme Canopy will endeavour to meet all customer due dates and deadlines. However, as there are many aspects out of our direct control such as shipping, we can not guarantee a due date. As such, Extreme Canopy does not accept liability for any missed due date nor do we accept any refund request based on this premise. Extreme Canopy has an outstanding reputation for meeting the tightest due dates and our team will continue to strive to be leaders in this aspect.
