

## Q8 QUASAR FULL SIDE WALL

Recommended procedure below. For safety reasons it is recommended that 2 persons set up any canopy. Ensure area is free from any sharp objects & overhead objects.

Unzip the Left and Right Wall Strips on the Full Wall Panel.

Slide the Leg Rubber Inserts (2) along the Keda of the Wall Strips. Align to the bottom of Wall Strip.

Insert the top of the Wall Strip Keda into the tracking of the Upper Leg of Canopy. (Hook facing inwards)

Attach the Wall Strip Hook to Eyelet in Roof. Ensure Hook is facing inwards. Repeat on other side.

Press the Leg Rubber Inserts into the tracking on the Lower Leg of the Canopy. Repeat on other side.

Full Wall Panel attach the Hooks to the Eyelets on Roof. Ensure Hook is facing inwards.

Zip the Wall Strip and the Half Wall Panel together. Repeat on other side.

Assemble the Full Wall Support Bar for the bottom of the Full Wall.

Bottom of Full Wall. Insert the Full Wall Keda into the Support Bar and slide Bar along fabric.

Insert Bar connection into the tracking on frame. Adjust the Bar as need to be level and in desired position, tighten bolts to secure. Repeat.

Finished Full Wall.

Finished Full Wall.
