TYPEFACE / FONT USED
NAME
The font shown in the above box indicates the font used on your order. Any free to download font can be used or alternatively please supply your font. <i>Please state to our Graphics Coordinator if you require this changed.</i>

PMS COLOR MATCHING
NUMBER
C M Y K
<div></div> <div></div> <div></div> <div></div>
<small>All printing is done using CMYK on a large format printer. Pantone colors / PMS codes can be supplied - they will be converted to a CMYK breakdown for digital printing. Please state to our Graphics Coordinator if you require color matching to either a PMS color or a physical sample. While we make every effort to match PMS colors, slight variation in color will occur.</small>

BINDING COLOR - POLY ROOF ONLY
WHITE
<i>Binding - The fabric used to join roof panels together.</i> The color shown in the above box indicates the color of the binding used on your order. Any Standard Color from our range can be selected to complete your order. <i>Custom colored binding is available - please contact our Graphics Coordinator for a quote.</i>

NON-PRINTED SIDE - POLY ROOF & WALLS ONLY
WHITE
<i>Color of the non-printed side of fabric.</i> As a standard all printed fabrics are white on the reverse, the color shown in the above box indicates the reverse side of the printed fabric on your order. Please select from WHITE or BLACK

Half Wall Note:
Half Walls are folded over a crossbar and stitched onto the inside (as shown).
For outside half wall printing, the artwork should be up to the designated "top of the half wall line". On the inside half wall artwork should finish at the stitching line.

Key

- Edge of panel
- Stitching line
- Top of the half wall

Please advise the graphics coordinator if you require color matching to either a Pantone color code or a physical sample. Digital artwork will be output in CMYK color coding. However, any required color matching must be supplied in the form of a Pantone solid coated number in order to achieve the most accurate print equivalent. While we make every effort to cross check and swatch-match your Pantone codes, slight variation in color can occur. Please bear in mind that colors displayed digitally on your mobile device or desktop monitor may be calibrated differently in contrast to the finished product.

Every effort is made to match colors between alternate material types and previous orders. Please note that there can be color variation between PVC material, marquee fabric, polyester and banner fabric, polyester, as well as variation between sublimation printing and UV method printing.

This graphic template is designed at a 10% scale of the final product.

Please reference the "Bleed" layer to build your artwork and only place your artwork elements within the "Design Layer" of this document. Rasterized (pixel-based or Photoshop) artwork should be supplied at a minimum 300dpi to suit this template size.

The Extreme Canopy logo and tag will be printed or sewn on to the valance panels as shown above unless instructed otherwise to your graphics coordinator.
