# 200

SPANISH SERIES

The 200 Series is made from a 4 inch square heavy duty marine grade aluminum pole with extruded aluminum ribs. The canopy is available in a range of vibrant colors in our Spanish Recasens fabric. Perfect for resorts, restaurants or cafes that need to provide cool shade for customers and patrons alike. If you are looking to promote your business, full color UV printing and screen printing is also available at great prices.

# Fabric Colours

## Spanish Recasens 100 & 200 Series

The fabric is a high-performance solution-dyed and fade resistant canvas that has been optimized for high tensile and tear strength. The Recasens brand has been manufacturing high quality fabrics in Spain since 1886.

			
Black R103	Abismo R174	Burgundy R177	Forest R102

Cocoa R195	Toast R100	Cream R115	White R099

## Frame Color

# Printing

## Printing Process

Extreme Canopy offers two printing processes suitable for vibrant full color images. Our Ultraviolet and Screen printing processes have high fade resistance factor and will endure extended time periods in any outdoor environment.

## UV Printing

Ultra Violet printers offer cutting edge technology and are perfect for full color digital photographic images, logos or company branding. The Ultraviolet printing process is superior to standard inkjet printers as a UV light follows the printing head and cures the ink. This results in a far more robust substrate and offers long term fade resistance.

## Screen Printing

Screen printing process is perfect for simple logos, cafe names or other branding. This process uses a series of screens that apply the ink directly onto the fabric. Each color requires an additional screen to be made. Although screen printing is more suitable for large volume production, it is also ideal for multiple units. The Extreme Canopy graphics team can recommend which process best meets your requirements.

**14" Base Plate Ground Fixing**  
10ft x 10ft, 13ft x 13ft & 13ft diameter

Hindged Steel Base Plate  
Bottom Plate: 14" x 14" x 1/2" (350mm x 350mm x 10mm)  
Hinge Plate: 7" x 7" x 14" (190mm x 190mm x 355mm)  
Weight: 22lb (10kg aprox.)  
Screw sets: 4 (attach umbrella to base)  
Concrete Bolts: 8 (permanet instalation)

**Instalation**  
The base plate comes separated from the umbrella pole. Base is attached to the umbrella with 4 screws and washers. There are 8 concrete bolts to attach the base plate permanetly a concrete slab.
